

Clearing Notice

TO: Eris Clearing Members
FROM: Eris Clearing Client Service
NOTICE: #21-03CN
NOTICE DATE: August 2, 2021
PUB. DATE: August 2, 2021
SUBJECT: Ethereum Fork Notification

To support the upcoming Ethereum London upgrade, ErisX plans to pause deposit and withdrawals of Ethereum based assets during the Ethereum London fork. The Ethereum blockchain upgrade is scheduled for block 12,965,000 at around August 5, 2021 at 9:00 AM UTC. Trading will not be halted or impacted.

What to expect when Ethereum services are paused:

- ETH and USDC deposits and withdrawal services will be paused 2 hours prior to the fork. We will monitor the fork for stability and restore deposit and withdrawal services as soon as possible thereafter. Trading will not be halted.
- Users will not be able to see the incoming transactions until we restore deposit services and start indexing the time that we were off.
- Outgoing transactions will start processing and going through once withdrawal services are restored.

We will restore our services as soon as the network stabilizes. We estimate this will be within 3 hours after the block height #12965000.

If you have any questions regarding this Clearing Notice please, contact Client Services 1 888 782 7481.
