

## Clearing Notice

TO: Cboe Clear Digital Futures Clearing Members and Participants  
FROM: Cboe Clear Digital Clearing Operations  
NOTICE: #24-12CN  
SUBJECT: Revised Cboe Digital Member File Updates and Decommission

This communication serves as an important update regarding the changes of certain member file formats and content. The date previously communicated was **Friday, August 2, 2024** and has been revised to effective close of business **Monday, August 12, 2024**, Cboe Clear Digital, LLC (“Cboe Clear Digital” or “Clearinghouse”) will append “\_EOD” to the name of the end-of-day files delivered to the outbound Secure File Transfer Protocol (“SFTP”) member directory for the following:

Current File Name	New End-of-Day File Name
ACCSUM_YYYYMMDD_Timestamp.csv	ACCSUM_EOD_YYYYMMDD_Timestamp.csv
ASTMVE_YYYYMMDD_Timestamp.csv	ASTMVE_EOD_YYYYMMDD_Timestamp.csv
POSSUM_YYYYMMDD_Timestamp.csv	POSSUM_EOD_YYYYMMDD_Timestamp.csv
settlements_YYYYMMDD_Timestamp.csv	settlements_EOD_YYYYMMDD_Timestamp.csv
STDREQ_YYYYMMDD_Timestamp.csv	STDREQ_EOD_YYYYMMDD_Timestamp.csv
TRDREG_YYYYMMDD_Timestamp.csv	TRDREG_EOD_YYYYMMDD_Timestamp.csv

Additionally, the values for “**Cycle**” in the ACCSUM, POSSUM, and ASTMVE files will now contain “ITD” for ad-hoc intraday settlement cycles and “MID” for regular midday settlement cycles.

Lastly, because of the above-mentioned changes, the decommissioned files deadline will be extended to **Friday, August 30, 2024**. The files listed in [Clearing Notice 24-02](#), will no longer be delivered to the SFTP member directory.

The date previously communicated for when the corresponding member files with the new format will be available in the New Release Environment for testing in the member outbound directory was July 8, 2024, but is now revised to **July 12, 2024**. It is highly recommended to test the files in the New Release environment as soon as possible. The file specifications can be reviewed [here](#) under the SFTP Member Files section.
